y concern

I confirm that I have dealt with Allen Grome of AG Reliable of Framingham Ma since 2005, during which time we have seeked his services to build a new deck and then recently to gut out a bathroom. Allen's work and expertise has been a major factor in the upscale on my home.

At all times I have found Allen to be dependable, reliable, hard-working, conscientious, honest and a man of integrity who is extremely dedicated to not only the work he produces but to his family and community. During these remodeling jobs at a time when I was unsure of what I needed or what to expect Allen always took the time to explain the process and details of each job.

In summary, I highly recommend AG Reliable for any general contracting job that he may seek to pursue and I have used Allen as a reference many times.

I'm happy to provide further information if required.

Sincerely,

Sandra [REDACTED]
